F06

Recipt for making one gal of washing fluid

1) Bar soap enough to make a good suds
(2) Indigo enough to make a deep Blue
(3) Eagle or Murry Brand of Powderd lye two teaspoons
(4) Borast one teaspoonfull

Directions first soak the clothes in cold or warm water five or ten minuetts then build a good fire under your Pot then put water enought in your Pot to cover your clothes entirely and while cold put in your fluid and a reasonable of chipt soap

4) wring the water from your clothes in soak as dry as posable (caution) soap freely the dirty spots and rub soap in and then put them in the the boiling water one Peace at a time intill all are put in but do not put in more than the water will cover do not stop the water from Boiling no cold water should be added after the water begins to boil let your clothes Boil five or ten minuetts keep well pushed down take them out and rinse through two or three waters and your clothes are clean the amount of fluid used is one pint to five gallons of water remember your water must be boiling before you put your clothes in the Pot you can wash two Potts of clothes in same water by addindg a small qantity of fluid and more soap
